Cd has over 300 songs on it, most with lyrics and chords for my own use (Composed in Word Perfect but can be read by MS WORD). *The above is solely MY INTERPRETATION of these great songs, in a format aimed at learning guitarists.*

No attempt has been made to copy or reproduce the artist's or publisher's sheet music for the song, if such exists.

The CD should be used for INFORMATIONAL PURPOSES ONLY. To play the song as it should be played, you are encouraged to purchase the official sheet music for the song.

You should also purchase and listen to the *original* song to learn the rhythm and timing of the song - this is essential if you wish to play the song with any degree of accuracy.

Note to lawyers and any other litigious-minded folk: I am not trying to screw anyone out of royalties, etc. I have put this list and CD together only as a helpful resource (all songs are uniquely arranged and only approximate the original). If you do not want your work posted on this CD, please just e-mail me at the address below and I will remove it.
